RACIONAL DESCRITIVO

The new concept for “O REGIONAL” is going to be a **colorful website** with the aim to capture your focus and never be bored to read news!

The new structure is subdivided in **five main Topic/Categories with different colors**, in this way any single color will permit you to recognize in which topic you are positioned, or what kind of Topic you are looking for.

All the other categories that are not a real/principal TOPIC are inside the voice “MORE”, for example: Video, Opinions, Oroscopto, Agenda and Meteo.
A new tool, is the log-in area through

this one you will be the protagonist of your magazine, you can choose which topic you want to be informed, to be always updated on your favourite subject and avoid “irrelevant news”.

Reading news is going to be a very pleasure even without images!

As a “magazine” more interactive, you can find an area for VIDEO when you can watch last news/real time or the best Video of the week, why not?!

Are you ready to enjoy the new O REGIONAL magazine? And discover what’s happening in Portugal and in all over the world?
